

WHY YOU SHOULD BECOME MEMBER OF THE WSSA

Workplace Super Specialists Australia (WSSA) is an association that represents corporate superannuation specialist advisory businesses.

WSSA members provide workplace financial advisory services to thousands of corporate superannuation funds, across metropolitan and regional Australia, and play an essential role in managing Australia's large and growing superannuation savings pool. Firstly, WSSA members work with Australian companies and their employees by

bringing financial education to the workplace at a low cost through structured programmes set in conjunction with employers and policy committees.

This provides members with general advice and information to help them improve their decisions about retirement savings and life insurance choices.
